

Course Description Term 2, 2016-2017

Grade 10																																														
Subject	Term 2 Contents																																													
English	<p>*Literature: The Plot Against the people (532-537), Doing Nothing is Something (638 - 644), And of Clay Are We Created (584-597), The Gift / Those Winter Sundays (252-257), The Pond/Fourth of July night /The red Wheelbarrow (894-899)</p> <p>*Vocabulary: Lessons 9-10-11-12-13-14-15 / Reading New Words In Context: Lessons (5-7),Pg. (167-184)</p> <p>*Grammar: Chapter 16 (225-238), Chapter17 (239-242)</p>																																													
Math	<table border="1"> <thead> <tr> <th>Chapter</th> <th>Section</th> <th>Title</th> </tr> </thead> <tbody> <tr> <td>2</td> <td>4</td> <td>Writing linear functions</td> </tr> <tr> <td>2</td> <td>5</td> <td>Linear inequalities in two variables</td> </tr> <tr> <td>2</td> <td>6</td> <td>Transforming linear functions</td> </tr> <tr> <td>2</td> <td>7</td> <td>Curve fitting in linear models</td> </tr> <tr> <td>2</td> <td>8</td> <td>Solving absolute value equations and inequalities</td> </tr> <tr> <td>2</td> <td>9</td> <td>Absolute value functions</td> </tr> <tr> <td>3</td> <td>1</td> <td>Using graphs and tables to solve linear system</td> </tr> <tr> <td>3</td> <td>2</td> <td>Using algebraic methods to solve linear system</td> </tr> <tr> <td>3</td> <td>3</td> <td>Solving system of linear inequalities</td> </tr> <tr> <td>3</td> <td>4</td> <td>linear programming</td> </tr> <tr> <td>3</td> <td>5</td> <td>linear equations in three dimensions</td> </tr> <tr> <td>4</td> <td>1</td> <td>Matrices and data</td> </tr> <tr> <td>4</td> <td>2</td> <td>Multiplying matrices</td> </tr> <tr> <td>4</td> <td>4</td> <td>Determinants and Cramer's rule</td> </tr> </tbody> </table>	Chapter	Section	Title	2	4	Writing linear functions	2	5	Linear inequalities in two variables	2	6	Transforming linear functions	2	7	Curve fitting in linear models	2	8	Solving absolute value equations and inequalities	2	9	Absolute value functions	3	1	Using graphs and tables to solve linear system	3	2	Using algebraic methods to solve linear system	3	3	Solving system of linear inequalities	3	4	linear programming	3	5	linear equations in three dimensions	4	1	Matrices and data	4	2	Multiplying matrices	4	4	Determinants and Cramer's rule
Chapter	Section	Title																																												
2	4	Writing linear functions																																												
2	5	Linear inequalities in two variables																																												
2	6	Transforming linear functions																																												
2	7	Curve fitting in linear models																																												
2	8	Solving absolute value equations and inequalities																																												
2	9	Absolute value functions																																												
3	1	Using graphs and tables to solve linear system																																												
3	2	Using algebraic methods to solve linear system																																												
3	3	Solving system of linear inequalities																																												
3	4	linear programming																																												
3	5	linear equations in three dimensions																																												
4	1	Matrices and data																																												
4	2	Multiplying matrices																																												
4	4	Determinants and Cramer's rule																																												

Course Description Term 2, 2016-2017

Biology	<p>Ch 8/Sec 2: Name of the lesson: Cell Transport .Pg 178-183 Ch 3/Sec 1: Cell Reproduction .Pg....223-226 Ch 10/Sec 2: Mitosis .Pg....228-232 Ch 10/Sec 3: Regulation. Pg....233-235 Ch 11/Sec: 1 Reproduction . Pg....247-249 Ch 11/Sec 2: Meiosis. Pg....250-254</p>
Chemistry	<p>Ch-6 Covalent compounds L.3 : Molecular shapes. Pg 208- 213 Ch-7 The mole and chemical composition L.1:Avagadro s number and molar Conversions.pg 224- 233 L.2:Relative atomic mass and chemical formulas.pg 234-240 L.3: formula and percentage composition. Pg 241-248 Ch-8. chemical equation and reaction L.1:describing chemical reaction. Pg 260-266</p>
Physics	<p>Ch 7: Section 1: Circular motion. pg 234-239 Section 2: Newton's law of universal gravitation. Pg 240-247 Section 3: Motion in space . pg 248-253 Section 4: Torque and simple Machines pg254-261 Ch 8: Section 1: Fluids and Buoyant force pg274-279. Section 2 : Fluids Pressure pg280-283 Section 3: Fluids in motion .pg 284-286</p>
